

MOVING THEATRE NORTH

Copenhagen • Hamburg • Malmö • London

We are about people and performance. And we love theatre!

København, 09.02.2025

Dear selection committee at Scenekunstudvalgets,

As a Copenhagen-based international theatre brand, we focus on innovative and contemporary English-language theatre projects, while creating cultural ties between the regions of Copenhagen, Malmö, Hamburg and London. **Artistically our niche at HIT International Theatre Arts is to present highly original, international playwrighting previously unseen in Denmark on socially and politically relevant themes.**

With our fourth project presented at Teatret ved Sorte Hest over the last three years, we continue our mission to provide on a regular basis, new award-winning cutting-edge theatre for international and Danish audiences, theatre that uniquely reflects the region and has sociopolitical relevance.

Multi award-winning Lucas Hnath - **“One of the most adventurous American playwrights working today”** (L.A. Times) - is largely performed all over the US and Europe but in comparison unknown in Denmark. We are extremely excited to have been granted the rights to introduce his work, not only as a Danish premiere in Copenhagen but also as a Nordic premiere in Scandinavia.

As a political ghost story drama THE THIN PLACE is unconventional from the first minute to the last, exploring our society’s political and spiritual vulnerabilities. Lucas Hnath reminds us that the power of the mind can be a dangerous weapon in the hands of skillful manipulators to sway the masses and set in motion a course of action. This project is a step in expanding and solidifying the status of non-Danish, quality English-language theatre and we sincerely hope you decide to support our application.

Med venlig hilsen, Jana Pulkrabek
