Kort projektbeskrivelse som forelægges udvalget uredigeret
<p>The concert-project is a live music performance of 3 original graphical music scores, performed on various acoustic instruments.</p> <p>It will take place in the Water Tower in Brønshøj, and will be performed by my self along with two selected musicians.</p> <p>The graphical scores are created by my self, and have their own independent instructions that will instruct different musical gestures, movements and melodies to the performers.</p> <p>With the live performance we want to unfold, and investigate the forming relational situation that will occur, that is; the relation between the scores, us as performers, the audience and the space, all happening at the same time in a single event.</p> <p>Audience will be invited to move freely around the space when we perform to engage them self in this relational situation and join us in our sonic investigation of the Water Tower.</p> <p>The concert is ideal for families and all public where light snacks and drinks will be available at the concert location.</p>

Formidling af projektet
Arriving closer to the event a facebook event will be created along with hand delivered invitations to friends, families, colleagues and many many more. We expect over 200 people to attend over the course of the two dates.

9th of May 12th of May
